

ALUMINUM SIDE CHAIR 10-HIGH SERIES

ROMA
Model # HC-90

Endo-Flex® Back

The Endo-Flex® mechanism is hidden under the seat of the chair, creating a look of a regular stack chair.

This device allows the back of the chair to flex, giving maximum comfort when sitting for extended periods of time.

Manufactured with premium grade aluminum, the flex piece is heat treated to allow for years of flexing without compromising the integrity of the frame structure.

Standard Features

- Includes side stack bars for added suport
